

PORTABLE METALLOGRAPHY

# MOBIPREP MOBISCOPE

There are numerous advantages in using in-situ/field metallography.

### **MOBIPREP**

MOBIPREP is a battery powered portable Grinder / Polisher and etcher designed for metallographic sample preparation in field or in laboratory. MOBIPREP contains maintenance-free batteries to work without stationary mains, consists of a control unit and a precision hand-guided grinding-polishing device with high performance micro motor.

MOBIPREP's hand-guided device can be used with either 45° or 90° angle or straight grinding-polishing pieces. The switch for ON/OFF is on the hand-guide and provides a click sensation with a confirmation tone from the control unit when the switch is operated.

All accessories are supplied with a hardcase protection and carrying bag where you have sufficient space to place your consumables.

With the etching pen MOBIPREP may be used for electrolytic etching. Thus working in field with alloyed steels is possible which can be etched by weak electrolytes instead of strong acids.

## **MOBISCOPE**

MOBISCOPE is ideal for examination of prepared surfaces on site. In case of detailed analysis in the laboratory, replica kit is recommended.

MOBISCOPE portable microscope provides up to 100x and 500x total magnification with 10x and 50x objectives which are supplied as standard. Optional 20x and 80x objectives are available. Rechargeable built in LED illumination with no need of electrical supply.

With the magnet stage, MOBISCOPE can be easily attached against the surface of any ferrous material at any angles on flat and curved surfaces.

Aluminum transport case with special foam inside customized for MOBISCOPE and the accessories for maximum protection during transportation.

#### Replication

Preparing a replica of the polished and etched surface is quite simple and an essential feature of in-situ/field metallography. Although the polished and etched surface can be examined directly with a portable microscope, replica foil will provide a permanent record of the microstructure. This replica can be taken back to the metallographic laboratory and enhanced. It can then be studied under the light microscope or scanning electron microscope(SEM).

## **SPECIFICATIONS**

#### **90 01 - MOBIPREP**

Portable grinding/polishing & Electrolytic etching

Contains maintenance-free batteries to work without stationary mains, consists of a control unit and a precision hand-guided grinding-polishing device with high performance micro motor. Output 36 V, adjustable in 5 steps Hand-guided

device: High Torque Brushless DC Motor Included Accesories – Angle Piece 90° – Grinding and polishing carriers (5 pieces)

Automatic Charger 12 V / 2,5 A

Optional Etching Pen

Dimensions: 104 x 54 x 160 mm, Weight 1 kg.

#### **Accessories for MOBIPREP**

90 10 - Etching-Pencil for electrolytic etching

90 11 - Angle piece 90 °, with 3-mm collet on

90 12 - Angle piece 45°, with 3-mm collet on

90 13 - Straight quick release piece of, with 3-mm collet on

90 14 - Grinding and polishing carriers (5 pieces)

90 15 - Shoulder bag for Mobiprep, synthetic leather

#### 90 02 - MOBISCOPE

Portable Metallurgical Microscope Basic Magnification: 100x - 500x Eyepieces: WF10X/FN18, Dia 23.2

Objectives: 10x/0.25 (W.D. 7,3 mm), 50x/0.65 (W.D. 0.5mm) C-mount adapter (for connecting C-mount cameras)

Mechanical tube lengnth 160 mm

Coaxial coarse/fine focus system, range:36mm

Polarizing Kits: Polarizer and Analyzer

Coaxial illumination, build-in LED rechargeable, brightness

adjustable

Including portable aluminium case.

#### **Accessories for MOBISCOPE**

90 30 - Magnet Stage

90 31 - Objective 20X

90 32 - Objective 80X

Other voltages and frequencies available upon request.
 Please state when ordering. All specifications are subject to change without notice.

# **SPECIFICATIONS**

ORDER NO	90 01
MODEL NO	MOBIPREP
Voltages	36V or 100-240V / 50-60Hz
Speed	0-25.000 rpm
2 LED Indicator	On / Low Battery
Operation Modes	<ul> <li>E – Etching-1</li> <li>EP – Etching-2 or Polishing-1</li> <li>EPG – Etching-3 or Polishing-2 or Grinding-1</li> <li>PG – Polishing-2 or Grinding-2</li> <li>G3 – Grinding-3</li> <li>G4 – Grinding-4</li> </ul>
Disc Diameter	30 mm.
Reduction Gear	3,9:1
Dimensions Width	104 mm
Height	54 mm
Depth	160 mm
Total weight	1 kg

ORDER NO	90 02
MODEL NO	MOBISCOPE
Total Magnification	100-500x
Head	Monocular
Еуеріесе	WF10X
LWD Plan Objective	PLL 10X/0.25 WD:7.3mm
(no cover glass)	PLL 50X/0.65 WD:0.5mm
Mechanical Tube Length	160mm
Focusing	Coaxial coarse/fine focus system, range:36mm
Light Source	Coaxial illumination
	build-in LED rechargeable
	brightness adjustable
Packing	Portable aluminium case
